**PURDUE UNIVERSITY**

Institute for Digital Forestry

UNDERGRADUATE SUMMER RESEARCH PROGRAM
Paid research opportunities in Digital Forestry

This summer, join the Institute for Digital Forestry Undergraduate Research Program!

Participants have the opportunity to conduct research within any of the Institute's themes: forest measurement, modeling, extension, and/or education.

During the summer, undergraduate researchers will:
- Conduct research
- Be mentored by Institute faculty and/or fellows
- Participate in professional development workshops
- Present a research poster at the Annual Retreat at the end of the summer

Students will participate in a time intensive research experience the weeks of May 18th-August 3rd and be paid a $7,000 living allowance, over three installments.

Strong applicants will have research interests which align with one or more of the Institute's projects (purdue.ag/idif-projects). Having one or more faculty members (purdue.ag/idif-team) who share the same interests further enhances applications.

APPLICATIONS ARE DUE SUNDAY, MARCH 2, 2025 - 11:59 PM
APPLY USING THE SURVEY LINK OR THE QR CODE.
